

## Description

This activity has been developed for teachers to use over a range of topics when students are starting to revise for a topic. The tasks require students to go back over the concepts that they have covered and start thinking of the types of questions they may be asked in an assessment.

## Instructions for teachers

The worksheet that students complete is a word document that has been designed using the developer function. This means that students can save the document to their device and are able to modify certain sections to record their answers. Although students are able to quickly adapt to this format, it is recommended that you briefly familiarise yourself with the document before you distribute it to students. You may also like to enter the topic that students will be revising in the heading before distributing the activity to students.

## Instructions for students

1. Download the activity, save to your device and then select view and select edit document.
2. Complete the activity and resave to your device.
3. Submit the task to your teacher for feedback.
