

# Anatomy Revision

## Teacher Notes

## Curriculum Links

### VCE PE Study Design

#### Unit 1: The Human Body in Motion

- Area of Study 1
  - How does the musculoskeletal system work to produce movement?
    - Outcome 1
      - ✓ the structure and function of the skeletal system including bones of the human body, classification of joints and joint actions.
      - ✓ the major muscles of the human body.

## Learning Intention and Success Criteria

### Learning Intention

To be able to test prior knowledge on the muscular and skeletal system.

### Success Criteria

- ✓ Label muscle and bones on yourself or another individual.
- ✓ Check your answers using 3D Anatomy Learning app or Nelson VCE PE textbook.
- ✓ Evaluate the implementation of this revision strategy.

## Equipment

- Scissors
- Sticky tape
- Device (Tablet, iPad, iPhone etc.)
- 3D Anatomy Learning (Free interactive app)
- Nelson VCE Physical Education Unit 1+ 2 textbook (chapter 2)
